COVER LETTER

Dear Sir/Madam

With my 3 years of experience in the web development and programming space, I can confidently inform you that the position I applied for, is my expertise. I am passionate about working with projects from the design phase to a finished-working system, it excites me dearly.

I am looking forward to being part of your team as I like sharing some ideas. Teamwork fascinates me, it brings out different elements and packs them into one working product. Bringing my knowledge of experience to your organisation would be an honour. My intentions with any projects I work on, are to finish off with a smile on a client's face out of satisfaction.

I, being a friendly person with a smile most times of the day, I also respect all individuals and give my best attention to understand what is expected of me.

Growth is the ultimate milestone I am looking forward to, both myself and for the organisation.

Thank you for the opportunity.

Shaphiro Mokgosi
Web Developer
